Fiskars is dedicated to making **every moment** of cooking more **enjoyable**.

We believe that cooking with tools that match your skill level and motivation, it is easier to **succeed** in the kitchen and to truly **enjoy cooking**. For the passionate and quality conscious home chefs who see cooking as a way to **express** their creativity and for the busy working parents looking for easy solutions for everyday cooking, we have an offering that matches their needs.

**Quality and functionality** are core values driving the design of our products. All Fiskars kitchen products are durable, ergonomic, user friendly and aesthetically designed.

**We believe  
the world is yours  
to shape.**

# Classic scissors

Since  
1967

The iconic design classic, with superior quality and performance, for all cutting needs. Made with premium materials.

# The icon

The iconic Classic scissors are a symbol of Fiskars and of our Finnish design heritage

## Features & benefits

**1 Sharp blades**

Specially developed blade grinding ensures high-precision cutting and keeps the blades sharp longer.

**2 Easy cleaning**

Handles are injection molded onto the blades insuring easy and hygienical cleaning.

**3 Supreme ergonomics**

Handles are designed under strong consideration of the natural movement of the hand resulting in enhanced comfort and cutting control.

**4 Best materials**

Made of the best quality materials, Classic scissors offer outstanding comfort, performance and durability.

**5 Quality control**

Each product is manually tested before leaving the factory ensuring you get only the first class scissors.

Tough everyday functionality

**Hard Face**

**Functional Form+**

Hard Face and Functional Form+ are all about upgraded everyday performance, durability and toughness. Product ranges have wide assortment for all cooking tasks.

# Rotisser

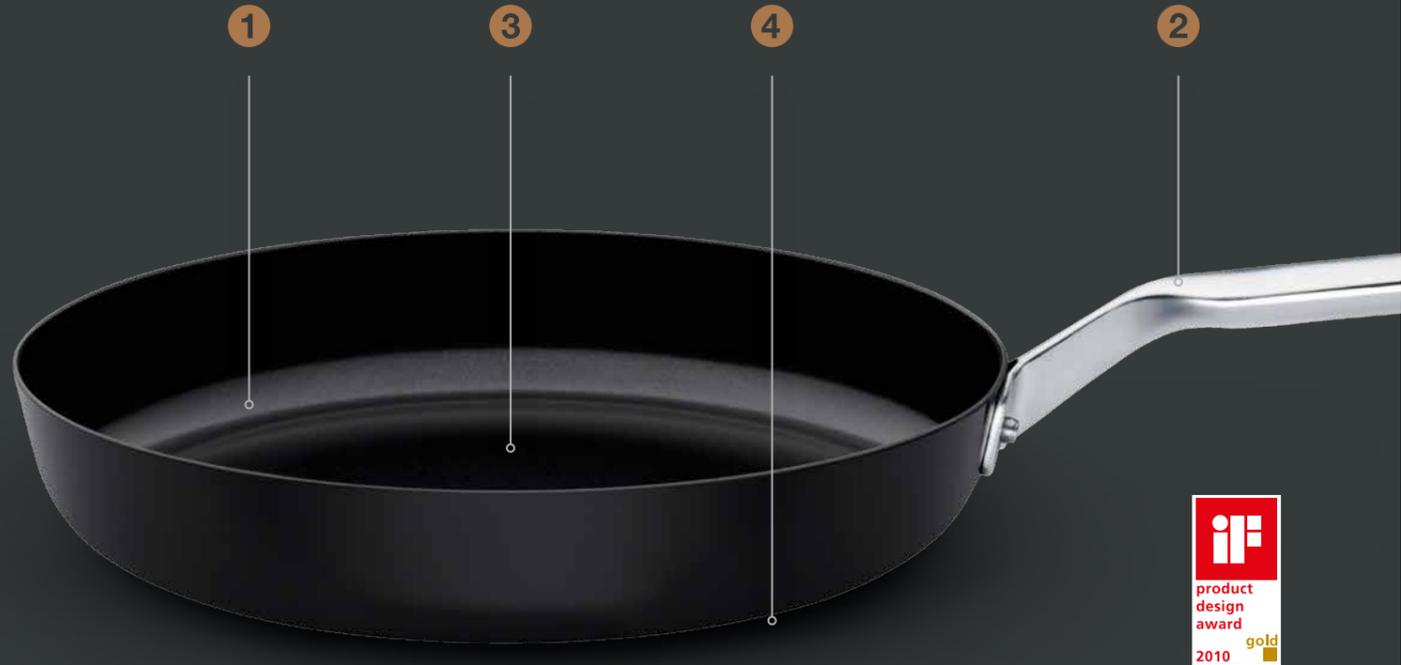

## For the best performance

Rotisser is the most sophisticated cookware range for all around cooking. Lasting design meets the latest technology for induction. Rotisser combines highest quality materials, unique induction technology and award winning design bringing luxury to your everyday life. Suits cooking on hob, in oven and serving on table.

Recommended for the most sophisticated all around cooking tasks.

# Rotisser features & benefits

**1 Even heating**

Made of high quality aluminium that conducts heat extremely well which means that the sides of the pan heat the food too.

**2 Safe handle**

Stainless steel handle is safe and ovenproof.

**3 Superior coating**

The extremely durable and non-stick Hardtec Superior coating makes cooking easy.

**4 Energy saving base**

The energy base heats up 50% faster on ceramic hobs and saves 30% energy.

**5 Works on all hobs.**

**OPTIHEAT** technology optimized for induction.

**6 Made in Finland.**

All Rotisser pans are made in Sorsakoski factories in central Finland.

# All Steel

## For the perfect frying result

All Steel is the range for special occasions. All Steel pans guarantee perfect frying result, making food taste better. The secret behind this lies in the non-stick ceramic Ceratec<sup>o</sup> coating that browns beautifully. All Steel coating tolerates even higher frying temperatures.

Recommended for special occasions requiring the best browning.

# All Steel / All Steel + features & benefits

**1 Durability**

Made of durable 18/10 stainless steel.

**2 Safe handle**

Stainless steel handle is safe and ovenproof.

**3 Ceratec coating**

The ceramic Ceratec coating is 20% more non-stick and guarantees a beautiful frying surface that tastes better.

**4 3-layer base**

The thick 3-layer base is optimised for efficient and even heating.

**5 5-layer base**

In All Steel+ models, the silent and efficient original 5-layer base is optimised for induction.

**6 Made in Finland.**

All Steel pans are made in Sorsakoski factories in central Finland.

# Royal

## For the ultimate cutting performance

Fiskars Royal knives provide the ultimate cutting experience for the experienced home chef. High performing materials and special grinding ensure precise cutting and a superior long lasting cutting performance.

## Royal knives features & benefits

Royal knife range combines perfectly contemporary award winning design, balance and functionality.

### 1 Superior materials

The blade is made of high performance German steel hardened for optimum hardness HRC 55.

### 2 Optimal grinding

Barrel grinding of blade reduces friction and ensures superior long lasting cutting performance.

### 3 Award winning design

- Elegant design combines good ergonomics, a stylish look and perfect balance.
- iF Design Award 2011 accredited knife range – designed by Jacob Leth-Espensen.

### 4 Ergonomic handle

- The ergonomic handle with large finger stop is cast in stainless steel and features a POM plastic surface with a matt finish.
- Extremely well balanced and durable.

## Royal knives

### Peeling knife

Perfect for easy whisking. Silicone coated whisk is easy to use and clean.

<b>Silicone brush</b>					Art. no. <b>1023614</b>	EAN 6 424002 005780
Height: <b>270 mm</b>	Length: <b>20 mm</b>	Width: <b>80 mm</b>	Weight: <b>55 g</b>	Retail box: <b>6</b>	Old art. no. <b>-</b>	

Perfect for easy baking. Silicone brush with specially designed bristles that hold liquids better.

<b>Dough scraper</b>					Art. no. <b>1023615</b>	EAN 6 424002 005797
Height: <b>347 mm</b>	Length: <b>20 mm</b>	Width: <b>80 mm</b>	Weight: <b>72 g</b>	Retail box: <b>6</b>	Old art. no. <b>-</b>	

Perfect for easy baking. Asymmetric scraper wipes the bowl perfectly.

<b>Frying guard</b>					Art. no. <b>1014348</b>	EAN 6 424002 000860
Height: <b>462 mm</b>	Length: <b>50 mm</b>	Width: <b>305 mm</b>	Weight: <b>257 g</b>	Retail box: <b>5</b>	Old art. no. <b>200086</b>	

Perfect for clean and safe frying. For pans up to 28 cm diameter.

<b>Colander</b>					Art. no. <b>1014345</b>	EAN 6 424002 000846
Height: <b>44 mm</b>	Length: <b>440 mm</b>	Width: <b>195 mm</b>	Weight: <b>244 g</b>	Retail box: <b>6</b>	Old art. no. <b>200084</b>	

Perfect for easy cooking. Collapsible structure makes it easy to store.

<b>Fish tweezers</b>					Art. no. <b>1003023</b>	EAN 5 702268 581851
Height: <b>37 mm</b>	Length: <b>220 mm</b>	Width: <b>76 mm</b>	Weight: <b>68 g</b>	Retail box: <b>6</b>	Old art. no. <b>858185</b>	

Stainless steel ensures good, firm grip on fish bones.

<b>Handy tongs</b>					Art. no. <b>1002986</b>	EAN 5 702268 581073
Height: <b>25 mm</b>	Length: <b>390 mm</b>	Width: <b>80 mm</b>	Weight: <b>98 g</b>	Retail box: <b>6</b>	Old art. no. <b>858107</b>	

Pointed tip and heat-resistant silicone tips for more precision and control. Design by Jakob Heiberg.

<b>Non-stick rolling pin</b>					Art. no. <b>1003021</b>	EAN 5 702268 581745
Height: <b>70 mm</b>	Length: <b>400 mm</b>	Width: <b>140 mm</b>	Weight: <b>585 g</b>	Retail box: <b>6</b>	Old art. no. <b>858174</b>	

Metal pin with non-stick coating that prevents dough from sticking to the surface. Ergonomic handles. Winner of the Red Dot design award 2010. Design by Jakob Heiberg.

### Clip-Sharp™ scissors sharpener

Height: **225 mm** Length: **40 mm** Width: **85 mm** Weight: **84 g** Retail box: **6**

Art. no. **1000812**

Old art. no. **859600**

Easy to use sharpener for both right- and left-handed use. Ensures an optimal cutting edge and life-long performance of your scissors. Easy to clean. Dishwasher safe.

### Touch bowl w/lid 1,0L

Height: **82 mm** Length: **185 mm** Width: **200 mm** Weight: **362 g** Retail box: **4**

Art. no. **1019489**

Old art. no. -

- Made of quality and durable stainless steel
- Dishwasher safe body
- Measuring scale inside
- Transparent plastic lid, that is flat – can be piled

### Touch bowl w/lid 3,0L

Height: **120 mm** Length: **240 mm** Width: **255 mm** Weight: **701 g** Retail box: **4**

Old art. no. -

- Made of quality and durable stainless steel
- Dishwasher safe body
- Measuring scale inside
- Transparent plastic lid, that is flat – can be piled

# Functional Form Hob optimised cookware

## Features & benefits

### 1 Optimised for Gas hobs

Both the stainless steel handle and aluminium base have been designed to withstand the use of a gas hob.

### 2 Optimised for Induction hobs

Both the stainless steel handle and stainless steel base have been optimised for induction hob use.

### 3 Optimised for Traditional hobs

Both the bakelite handle and the stainless steel base are optimal for traditional hob use.

### 4 Optimised for Ceramic hobs

Both the bakelite handle and the aluminium base are optimal for ceramic hob use.

## Functional Form cookware

Optimised for ceramic hobs

### Frying pan 24 cm, optimised for ceramic hobs

Height: 47 mm Length: 450 mm Width: 252 mm Weight: 850 g Retail box: 6

Art. no. 1015336

Old art. no. -

Fiskars has developed the perfect pan for your ceramic hob. The energy base is optimised for 50 % faster heating. The durable Hardtec coating makes cooking easy, no sticking, and the bakelite handle is safe and stays cool.

### Frying pan 26 cm, optimised for ceramic hobs

Height: 53 mm Length: 480 mm Width: 273 mm Weight: 1080 g Retail box: 6

Art. no. 1015332

Old art. no. -

Fiskars has developed the perfect pan for your ceramic hob. The energy base is optimised for 50 % faster heating. The durable Hardtec coating makes cooking easy, no sticking, and the bakelite handle is safe and stays cool.

### Frying pan 28 cm, optimised for ceramic hobs

Height: 55 mm Length: 500 mm Width: 290 mm Weight: 1150 g Retail box: 6

Art. no. 1015319

Old art. no. -

Fiskars has developed the perfect pan for your ceramic hob. The energy base is optimised for 50 % faster heating. The durable Hardtec coating makes cooking easy, no sticking, and the bakelite handle is safe and stays cool.

### Sauté pan 26 cm, optimised for ceramic hobs

Height: 81 mm Length: 480 mm Width: 282 mm Weight: 1680 g Retail box: 4

Art. no. 1015324

Old art. no. -

Fiskars has developed the perfect pan for your ceramic hob. The energy base is optimised for 50 % faster heating. The durable Hardtec coating makes cooking easy, no sticking, and the bakelite handle is safe and stays cool.

## Functional Form cookware

Optimised for induction hobs

### Frying pan 24 cm, optimised for induction hobs

Height: 45 mm Length: 450 mm Width: 252 mm Weight: 840 g Retail box: 6

Art. no. 1015334

Old art. no. -

EAN

Fiskars has developed the perfect pan for your induction hob. The base is optimised for efficient and even heating. The durable Hardtec coating makes cooking easy, no sticking, and the stainless steel handle is safe to use.

### Frying pan 26 cm, optimised for induction hobs

Height: 55 mm Length: 480 mm Width: 275 mm Weight: 990 g Retail box: 6

Art. no. 1015330

Old art. no. -

EAN

Fiskars has developed the perfect pan for your induction hob. The base is optimised for efficient and even heating. The durable Hardtec coating makes cooking easy, no sticking, and the stainless steel handle is safe to use.

### Frying pan 28 cm, optimised for induction hobs

Height: 55 mm Length: 500 mm Width: 296 mm Weight: 1140 g Retail box: 6

Art. no. 1015317

Old art. no. -

EAN

Fiskars has developed the perfect pan for your induction hob. The base is optimised for efficient and even heating. The durable Hardtec coating makes cooking easy, no sticking, and the stainless steel handle is safe to use.

### Sauté pan 26 cm, optimised for induction hobs

Height: 81 mm Length: 480 mm Width: 280 mm Weight: 1620 g Retail box: 4

Art. no. 1015322

Old art. no. -

EAN

Fiskars has developed the perfect pan for your induction hob. The base is optimised for efficient and even heating. The durable Hardtec coating makes cooking easy, no sticking, and the stainless steel handle is safe to use.

## Functional Form cookware

Optimised for gas hobs

### Frying pan 24 cm, optimised for gas hobs

Height: 45 mm Length: 450 mm Width: 252 mm Weight: 750 g Retail box: 6

Art. no. 1015335

Old art. no. -

EAN

Fiskars has developed the perfect pan for your gas hob. The thick base is optimized for even heating on the fast gas hobs. The durable Hardtec coating makes cooking easy, no sticking, and the stainless steel handle is safe to use with gas.

### Frying pan 26 cm, optimised for gas hobs

Height: 53 mm Length: 480 mm Width: 273 mm Weight: 1080 g Retail box: 6

Art. no. 1015331

Old art. no. -

EAN

Fiskars has developed the perfect pan for your gas hob. The thick base is optimized for even heating on the fast gas hobs. The durable Hardtec coating makes cooking easy, no sticking, and the stainless steel handle is safe to use with gas.

### Frying pan 28 cm, optimised for gas hobs

Height: 55 mm Length: 500 mm Width: 290 mm Weight: 1140 g Retail box: 6

Art. no. 1015318

Old art. no. -

EAN

Fiskars has developed the perfect pan for your gas hob. The thick base is optimized for even heating on the fast gas hobs. The durable Hardtec coating makes cooking easy, no sticking, and the stainless steel handle is safe to use with gas.

### Sauté pan 26 cm, optimised for gas hobs

Height: 81 mm Length: 480 mm Width: 282 mm Weight: 1680 g Retail box: 4

Art. no. 1015323

Old art. no. -

EAN

Fiskars has developed the perfect pan for your gas hob. The thick base is optimized for even heating on the fast gas hobs. The durable Hardtec coating makes cooking easy, no sticking, and the stainless steel handle is safe to use with gas.

## Functional Form cookware

Optimised for traditional hobs

### Frying pan 24 cm, optimised for traditional hobs

Height: 55 mm Length: 440 mm Width: 255 mm Weight: 860 g Retail box: 6

Art. no. 1015338

Old art. no. -

Fiskars has developed the perfect pan for your traditional electric hob. The thickness of the pan is optimised for faster heating. The durable Hardtec coating makes cooking easy, no sticking, and the bakelite handle is safe and stays cool.

### Frying pan 26 cm, optimised for traditional hobs

Height: 55 mm Length: 480 mm Width: 275 mm Weight: 1040 g Retail box: 6

Art. no. 1015320

Old art. no. -

Fiskars has developed the perfect pan for your traditional electric hob. The thickness of the pan is optimised for faster heating. The durable Hardtec coating makes cooking easy, no sticking, and the bakelite handle is safe and stays cool.

### Frying pan 28 cm, optimised for traditional hobs

Height: 55 mm Length: 490 mm Width: 295 mm Weight: 1190 g Retail box: 6

# Edge knives

Fiskars Edge knives have a sleek, modern design and innovative features. The specialised coating does much more than just gives the knife an attractive black finish – it makes it easier to maintain.

## Edge knives features & benefits

Durability for easy cutting, easy cleaning and storing.

### 1 Strong and thick blade for better cutting

High quality Japanese standard stainless steel 420 J2 and taper grinding ensure sharpness of blade.

### 2 Ergonomic design

- Enables all grips and left/right handed use.
- Handle enables user to hold knife close to blade.

### 3 Durable and easy to clean blade

Protective non-stick PTFE coating prevents corrosion and food from sticking to the blade.

### 4 Durable handle

Durable and impact resistant ABS plastic handle is easy to keep clean.

## Edge knives

### Peeling knife, 8 cm

Height: 20 mm Length: 340 mm Width: 65 mm Weight: 69 g Retail box: 5

Art. no. 1003091

Old art. no. 978301

Small, lightweight, handy knife with straight blade and firm tip. Ideal knife for peeling fruit and vegetables. Also suitable for cutting out spots and blemishes.

### Tomato knife, 13 cm

Height: 20 mm Length: 340 mm Width: 65 mm Weight: 74 g Retail box: 5

Art. no. 1003092

Old art. no. 978304

Medium-sized, handy, versatile knife with serrated blade. Excellent for cutting foods with a crust or skin such as bread and tomatoes. Suitable also for table use.

### Deba knife, 12 cm

Height: 20 mm Length: 340 mm Width: 65 mm Weight: 78 g Retail box: 5

Art. no. 1003096

Old art. no. 978326

Asian knife for cutting medium sized foods.

### Cook's knife, 15 cm

Height: 20 mm Length: 370 mm Width: 75 mm Weight: 130 g Retail box: 5

Art. no. 1003095

Old art. no. 978311

Sturdy knife with broad, strong blade. Ideal knife for cutting medium sized foods.

### Cook's knife, 19 cm

Height: 25 mm Length: 430 mm Width: 75 mm Weight: 148 g Retail box: 5

Art. no. 1003094

Old art. no. 978308

Large knife with broad, strong blade. An all-rounder for cutting meat, chopping vegetables and mincing herbs.

**Santoku knife, 17 cm**Height: **25 mm** Length: **370 mm** Width: **92 mm** Weight: **151 g** Retail box: **5**Art. no. **1003097**Old art. no. **978331**

Asian knife with broad blade. An all-rounder for preparing meat, fish and also vegetables.

**Bread knife, 23 cm**Height: **20 mm** Length: **430 mm** Width: **75 mm** Weight: **156 g** Retail box: **5**Art. no. **1003093**Old art. no. **978305**

Long, strong knife with serrated blade. Cuts effortlessly through hard bread crusts.

**Roll-Sharp™ knife sharpener**Height: **233 mm** Length: **40 mm** Width: **88 mm** Weight: **111 g** Retail box: **6**Art. no. **1003098**Old art. no. **978700**

Easy to use sharpener with ceramic grindstone and non-slip base for both right- and left-handed use. Ensures an optimal cutting edge and lifelong performance. Easy to take apart for cleaning. Also for thick blades such as bigger kitchen knives and cleavers.

**Knife block with 5 knives**Height: **80 mm** Length: **390 mm** Width: **187 mm** Weight: **1940 g** Retail box: **4**Art. no. **1003099**Old art. no. **978791**

Knife block that you can mount on the wall, keep in the drawer or have on the counter. The knife block includes a peeling knife, tomato knife, bread knife, cook's knife large and Santoku knife.

Service and care

## Knives

All Fiskars knives have a hardness measurement between HRC 52 and HRC 56. This enables re-sharpening, making them ideal for everyday household use. The knife blades are made of stainless steel, which ensures that they last for a long time. The handles of Fiskars knives are injection-moulded directly onto the blade, providing a tight seal that prevents bacteria from lodging there. The materials and bond of our handles allow for safe cutting even when wet or greasy. Many Fiskars knives also feature a large finger stop that minimises any risk of fingers slipping onto the blade.

### MAINTENANCE

The better a Fiskars knife is looked after, the longer the intervals, before it needs sharpening. However, it is perfectly normal for a knife to need sharpening every once in a while to maintain a perfect cutting edge. A knife stays sharp longer if you make sure to always cut on a suitable surface such as a chopping board made of wood or plastic. You should never use the knife directly on hard kitchen surfaces as this will blunt the edge.

Professional chefs use a sharpening steel each time when using a knife, to make sure it is sharp and ready for use. In normal domestic kitchens, it is not necessary to sharpen your knives as often. It is enough to either sharpen them at regular intervals or simply when they need it. Fiskars knives have a hardness of between HRC 52 and HRC 56, which makes them ideal for everyday household use. The harder the blade of a knife is, the longer it remains sharp. On the other hand, greater hardness also makes the knife more difficult to re-sharpen. By contrast, a softer blade is easier to re-sharpen, but gets blunt more quickly and has to be sharpened more often, although the process is correspondingly easier. Due to their high quality, Fiskars knives stay sharp for a notable period of time after re-sharpening. Sharpening is also made easy, using either a Fiskars Roll-Sharp™ or a Fiskars sharpening steel. Using a sharpening steel requires some skill. Fiskars knives have a total sharpening angle of 30 degrees meaning that the knife should be passed down the sharpening steel at the angle of 15 degrees each way, and repeated on the other side. Use long, even strokes. Alternatively, using a Fiskars Roll-

Sharp™ for getting the job done quickly and easily. The Roll-Sharp™ should be placed on a flat surface, and the blade of the knife pushed backwards and forwards through it, 15-20 times. This makes sure the sharpening takes place at exactly the right angle. It is important that you move the knife backwards as well as forwards to make sure it gets sharpened on both sides. Irrespective of which method you prefer to use to keep your Fiskars knives sharp, you should rinse off the knife using hot water and dry it once you are finished.

### CLEANING

Most Fiskars knives can be washed in the the dishwasher. Norr & Royal knives should be washed by hand. When washing your knives by hand, rinse and dry them off straight after washing. Fiskars knives must not be left to soak. It is also important not to allow food remains to dry on the surface of the knife, because acids present in the food residue will damage the knife in the long run. If you do put Fiskars knives in the dishwasher, it is a good idea to make sure they do not come into contact with other utensils, dishes or cutlery, because this will cause damage to the cutting edge.

Small amounts of rust are sometimes present in dishwashers of all kinds, and these can spread around while the dishwasher is running. These rust spots can stem from the inside of the dishwasher itself, or from other items being washed. They may also have been left behind by previous washes. If you prefer to wash your Fiskars knives in the dishwasher, open the door to let the steam escape. It is also a good idea to dry off the knives with a dry cloth once the dishwasher cycle is complete. If rust spots do appear on your knives you can remove them by using a regular steel cleaning product.

### STORING

Most knives quickly become blunt, if they are just placed in a drawer, because the cutting edge gets damaged by movement and contact with other items. To keep Fiskars knives sharp, they should either be placed in a knife block or on a magnetic wall rack.

## Scissors

The handles of all Fiskars scissors are injection-moulded directly onto the blades. This makes them as hygienic as possible, because there are no cracks and gaps in which bacteria can accumulate. Our handles are made of impact-resistant plastic.

The nickel-free blades are precision-ground, and made of hardened Swedish Sandvik steel with a hardness of HRC 55 or HRC 57. The tension between the blades can be easily adjusted.

### MAINTENANCE

Most of the handles on Fiskars Classic scissors are made of polybutylene terephthalate (PBT), a plastic that can be sterilised effectively using either gamma rays or an autoclave. If you use an autoclave, the temperature should not exceed 137°C. It is a good idea to keep the blades sharp by regular use of a Fiskars Clip-Sharp™. Fiskars scissors are generally dishwasher safe.

### STORING

Some Fiskars scissors are sold in a storage cover that makes sure no one catches their fingers or hands on the points if the scissors are lying around or are in a drawer. The cover also helps protect the scissors against damage, and keeps them sharp longer.

## Cutlery

All Fiskars cutlery is made of stainless steel. Despite the name, no steel of any type can be absolutely resistant to external influences. Stainless steel is a name for steel that is rust-resistant, and where any small particles of rust can easily be removed using steel cleaner.

### CLEANING

New cutlery should always be washed before first time use. To keep Fiskars cutlery looking good for as long as possible, it is advisable to polish it with a regular steel cleaning product at least once a year.

Handwashing is recommended for Fiskars cutlery to keep the items in good condition. Cutlery should be dried carefully after washing. If cutlery is placed in the dishwasher, it should be rinsed beforehand. Once the dishwasher cycle is complete, the door should be opened to let the steam escape. To get the very best result, cutlery should be dried with a cloth once the dishwasher cycle is complete.

Small amounts of rust are sometimes present in dishwashers of all kinds, and these can spread around while the dishwasher is running. These rust spots can stem from the inside of the dishwasher itself, or from other items being washed. They may also have been left behind by previous washes. If rust spots do appear on your cutlery, you can remove them by using a regular steel cleaning product.

## Cookware

**Fiskars uses durable materials of high-quality and also invests in R&D in order to make the best possible cookware, every day.**

### ALUMINIUM AND STAINLESS STEEL FOR THE BEST POTS AND PANS

As a core material for coated pans aluminium beats all others thanks to its phenomenal heat conductivity. Also the sides of the pan heat the food. Aluminium pans are easy to handle because aluminium is a light metal. It is also a soft material, which is why we coat the entire pan so it can withstand wear much better. Stainless steel is extremely durable, easy to care for and to clean. Stainless steel withstands very high temperatures and corrosive substances, such as acids. Only highly concentrated solutions of cooking salt and extremely strong acids can damage a stainless steel surface. Products with bakelite fittings are oven safe up to 150 degrees and products with stainless steel fittings up to 250 degrees.

### COATINGS

The quality of the coating is essential and therefore Fiskars is constantly working to make coatings stronger and to further improving their non-stick properties. The Fiskars PTFE-coating has excellent non-stick properties. The advantages of this coating include its hardwearing nature and effective corrosion protection. For a longer life span, please use plastic and wooden utensils. Fiskars coatings do not contain Perfluorooctanoic acid (PFOA).

### USE AND MAINTENANCE

Put some oil or a couple of tablespoons of water in the pan before starting to cook. Do not heat up an empty pan. Once the oil has browned or the water has evaporated, the pan is hot enough for frying. Fry on moderate heat. Temperatures above 250 °C can damage the coating. Do not add salt before the water is boiling, and do not store food in coated pans. Hot cookware should not be put in cold water as the temperature shock may cause the base to become uneven.

### CLEANING

Wash the cookware before using it for the first time and clean the cookware immediately after use. All products are dishwasher safe. Washing coated aluminium and stainless steel cookware by hand will prolong their life span.

—  
! All Fiskars Kitchen products are officially approved for use in direct contact with food products.

Fiskars has been a part of the evolution of tools since 1649. Our scissors have cut millions of meters of fabrics. Our axes have worked millions of trunks. Our knives have cut millions of slices of bread. Our pans have fried millions of carefully marinated steaks – all with a superior outcome.
